V-Twin Engine

The Greenfield story started in 1966, when inventor Theo Reinhold decided that Australia needed a ride-on mower that was tough, built to last and designed for our unique conditions.

What followed was the start of an Aussie icon that has become a family heirloom for farmers and acreage owners throughout the whole country.

Manufactured to withstand Australia's demanding conditions, it is our guarantee that Greenfield ride-on's will work efficiently under the toughest conditions.

Greenfield's don't just mow lawns, they cut grass!
