

**INTRODUCING**

**WATER POWER  
WITH PRECISION  
AND EFFICIENCY.**

**PRESSURE  
WASHERS**

2017/2018

A man in a dark long-sleeved shirt and jeans is using a red and black pressure washer to clean a wooden deck. The deck is in front of a modern house with large glass windows. The background shows a lush green hillside under a blue sky with scattered clouds. The scene is lit with warm, golden light, suggesting late afternoon or early morning.

**WE'VE KNOWN ITS  
POWER FOR 328 YEARS.  
NOW WE'VE MADE IT  
SUITABLE FOR HOME USE.**

For decades, we have helped you to keep up with the powers of nature. This time it's a little different. Now we are making one of nature's powers our own. It is, however, a power we have been familiar with for centuries. A power that incessantly continues its tumbling, roaring fall down the mountainside next to our factory. A power whose force now gets focused, whose flow is defined, and whose action can be perfectly controlled. All to give you the best possible results.

# PERFORMANCE BY HUSQVARNA

Our pressure washers offer all the quality and intuitive operation you expect from Husqvarna. Get a fresher look to your vehicles, garden furniture, walls, stone settings or patio – your Husqvarna pressure washer is prepared to take on just about any space outside where dirt and dust have gathered. Add a complete range of accessories, and you will always have full control over the work. If you know us, we would never have it any other way – and we are pretty sure that goes for you too.

# MORE CLEANING, WITH LESS WATER.

# A FULLY EQUIPPED RANGE - JUST ADD WATER.

## HUSQVARNA PW460

Top of the range, full-featured machine offering the highest performance. Featuring a brass pump with ceramic pistons for outstanding durability and long-term performance. The pressure control allows for optimal adjustment and minimum water consumption. With an integrated detergent tank with easy dosage adjustments via the front panel, high pressure cleaning has never been easier. Standard equipment includes: 15m hose, variable flat jet nozzle and rotary nozzle.

## HUSQVARNA PW360

High-performance machine with a robust and purposeful design for excellent results on demanding jobs such as mid-size vehicles and stone walls. Features a comfortable Low Force grip for easy activation and a long spray lance which ensures easy reach and an ergonomic working position. The large wheels and aluminium telescopic handle enables easy transportation. Standard equipment includes: 10m hose, foam sprayer, variable flat jet nozzle and rotary nozzle.

## HUSQVARNA PW235R

An all-round, reliable, high-pressure machine ideal for most cleaning tasks around the house and garden. Features a remote control to easily set the required water pressure whilst working, while the metal pump ensures high durability. Two swivel functions for nozzle adjustment and quick connection for ease of use. Standard equipment includes: 8m hose, foam sprayer, flat jet nozzle and rotary nozzle.

## HUSQVARNA PW125

A compact and light weight pressure washer ideal for easy and convenient cleaning of patios and garden equipment. Features a metal pump for high durability, two swivel functions for nozzle adjustment and quick connection for ease of use. On-board accessory storage, hose reel and power cord storage make operation efficient. Standard equipment includes: 7m hose, foam sprayer, variable flat jet nozzle and rotary nozzle.

### METAL PUMP

The pump is made of metal to minimise the risk of breakage and to give your product a long lifetime.

### LONG, STEEL-REINFORCED HOSE

The flexible high-pressure hose is reinforced with steel to give you extra durability, easy handling and a prolonged product lifetime.

### DOUBLE SWIVELS AND QUICK CONNECT

The spray lance features double swivel functions and quick connections for hose, nozzles and accessories – all to maximise your efficiency and comfort.

### ON BOARD STORAGE

All included accessories can be neatly stored on the machine for easy access and more efficient work.

### LOW FORCE GRIP

The trigger's activation is perfectly adjusted to your fingers, giving you less effort and more comfort.

### LARGE AND ROBUST WHEELS

Easy movement on uneven ground is ensured by the large, soft-grip wheels, mounted on a metal axis.

# GET THE MOST OUT OF YOUR WATER POWER.

The Husqvarna pressure washers accessories are developed along with the machines to meet safety regulations and to achieve the optimal product performance. If in need of repair, Husqvarna recommend it to be done by a qualified technician using only Genuine Husqvarna original or recommended spare parts. This will support the product's performance and lifetime. See your owner manual or consult your Husqvarna Dealer with any queries

## SURFACE CLEANER

A highly efficient rotating cleaner for both vertical and horizontal surfaces.

590 65 78-01 SC400  
590 65 79-01 SC300

## ROTATING BRUSH KIT

Three different brushes can be mounted for soft, hard and difficult to reach surfaces. Built in detergent tank with dosage regulation.

590 66 06-01

## VEHICLE CLEANING KIT

Includes a wide fan jet nozzle for sensitive surfaces, an angled nozzle for hard to reach areas and a wash brush with squeegee.

590 66 07-01

## FOAM SPRAYER

Efficient and fast covering foam sprayer with dosage regulation for the perfect detergent amount depending on the task.

590 66 04-01 FS300

## CLEANING PRODUCTS

Highly effective detergents designed for use in a variety of cleaning applications.

590 66 13-01 Vehicle Cleaner and Wax  
590 66 12-01 Stone and Wood Cleaner

## WATER FILTER

Protects the pump against dirt in the water that can create damages in the pump. 3/4" Connection.

590 65 93-01

## PIPE CLEANING HOSE

Flexible, self-feeding, 15m hose for cleaning of blocked drains, pipes or rain gutters. Two nozzle heads for small and large pipes included.

590 66 10-01

## REINFORCED EXTENSION HOSE

Textile reinforced (8m) and Steel reinforced (10m) extension hoses with a quick connection.

590 66 08-01 Textile-reinforced Extension Hose (8m)  
590 66 09-01 Steel-reinforced Extension Hose (10m)

## WATER SUCTION NOZZLE

The Water Suction Nozzle turns your high pressure washer into a pump for removal of large amounts of water.

590 66 05-01

NOTE: Always check national regulations before connecting the machine to potable water mains and use a backflow preventer if required. Please make sure to comply with local waste water regulations when using Husqvarna high pressure washers.

\*Hand-arm vibration according to ISO 5349-1 with flat jet nozzle. \*\*Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000 / 14 / EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1-3 dB(A).

# LET'S KEEP EVERYTHING CLEAN. INCLUDING YOUR CONSCIENCE.

Nature's own cleaning fluid has unexpected powers – something you will discover with the new Husqvarna pressure washers. Water's washing performance is hard to beat when combined with world-leading technology and engineering. As there is limited access to water in many areas, you do not want to waste any of it. A Husqvarna pressure washer actually uses about 80% less water to get the job done when compared to a regular hose.

**80%**  
LESS WATER\*

\*Compared to a regular water hose.

#### IMPORTANT INFORMATION

Husqvarna conducts continuous product development and reserves the right to change designs, specifications and equipment levels without prior notification. Always read the instructions carefully before use, as products with moving parts can be dangerous if used incorrectly. All images in the catalogue are for illustrational purposes only. All technical data was current at the time of printing, however these may change as a result of further product development. Product availability, standard features and equipment may vary from market to market. Optional equipment may be purchased at an additional cost. Please check with your local authorised Husqvarna Servicing Dealer for products recommended and approved in your market.
