ADVANCING THE CAUSE

In terms of muscle, the MXU 700i EPS has always been KYMCO's ATV flagship – and with 44hp (33kW) and 55Nm the new model well and truly holds onto that halo. Then it ramps up again, with not only a linked braking system but also an anti-theft steering lock, more ground clearance, increased towing capacity, extra fuel capacity (and a relocated fuel cell for better weight distribution) and more suspension travel. There's also a USB charging port. Power, refinement and brawn all together in one!
